

Gender equality exploration

Aigul Kosherbayeva

PAI789: https://github.com/Aigul-PAI789/Aigul_final-project

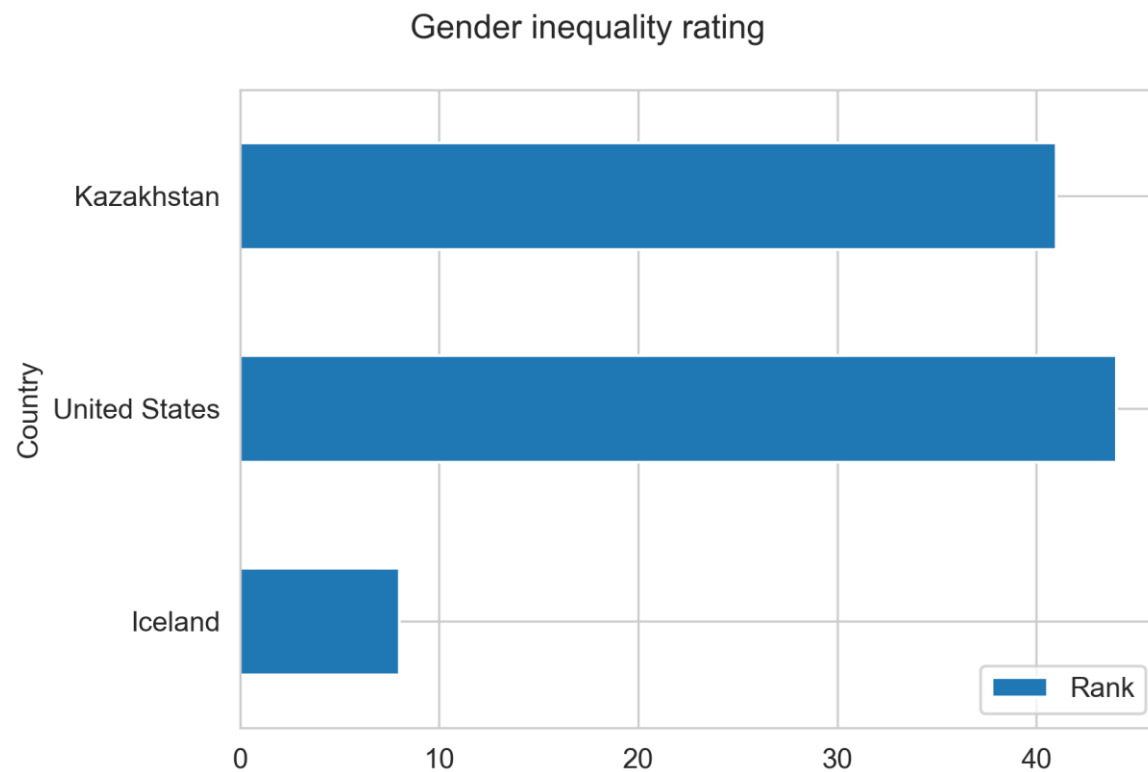

We used the methodological approaches:

- the UN (Gender Inequality Index)
- the World Economic Forum (Global Gender Gap Index)
- World Bank Group (WBG) Gender Strategy

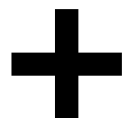

Gender Inequality Index

Global Gender Gap Index

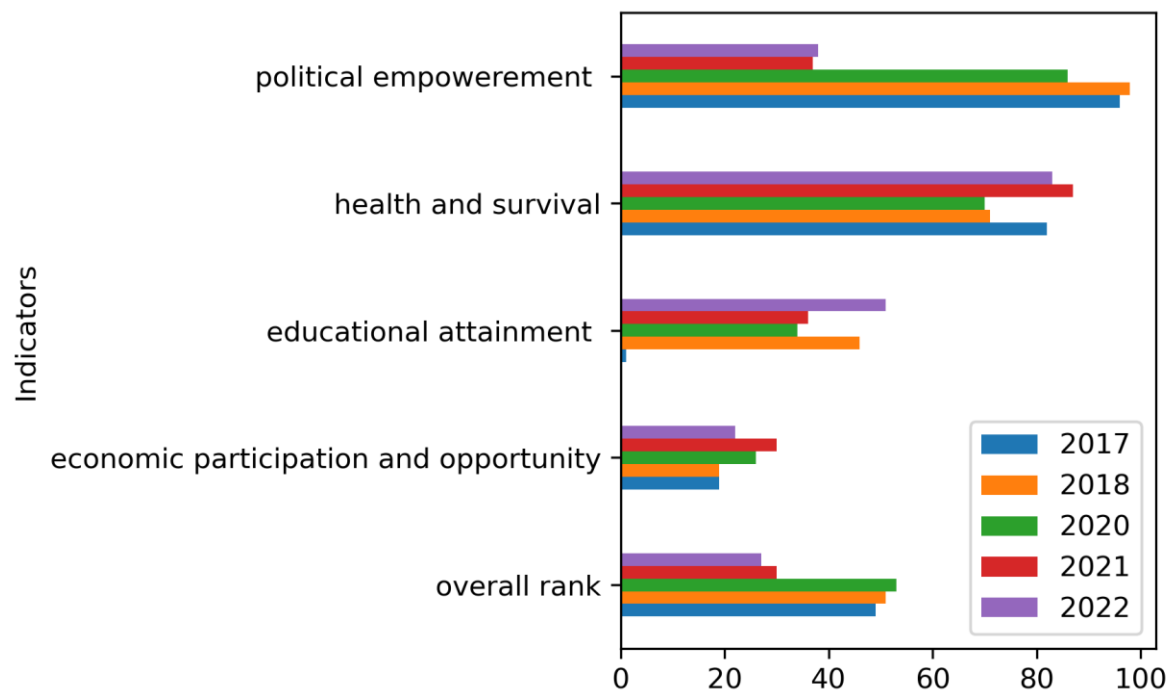

The Global Gender Gap Index in Kazakhstan

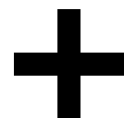

The Global Gender Gap Index in US

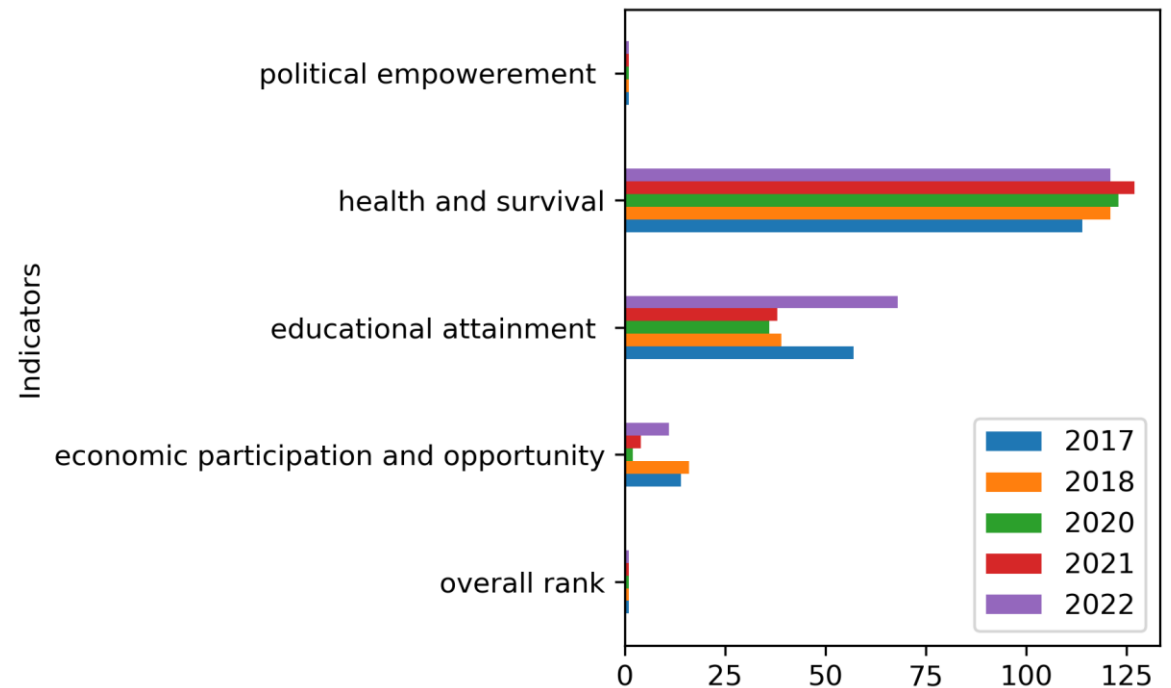

Global Gender Gap Index

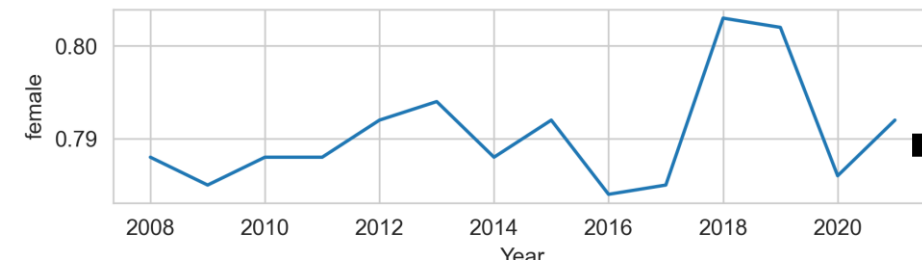

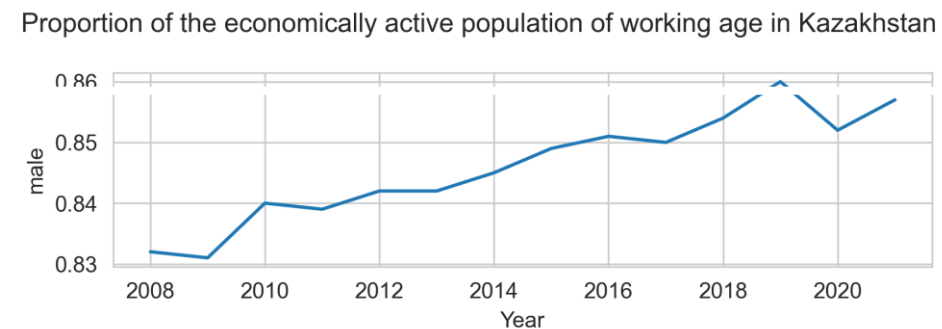

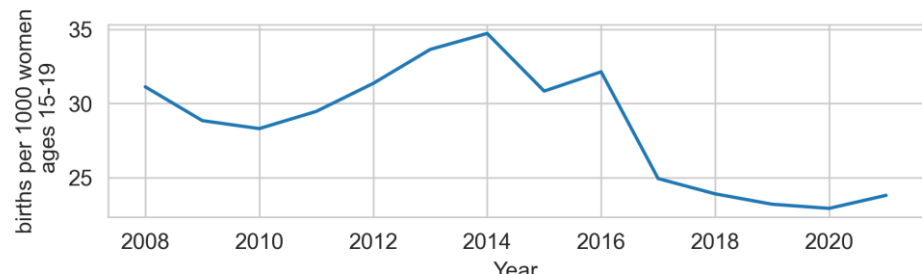

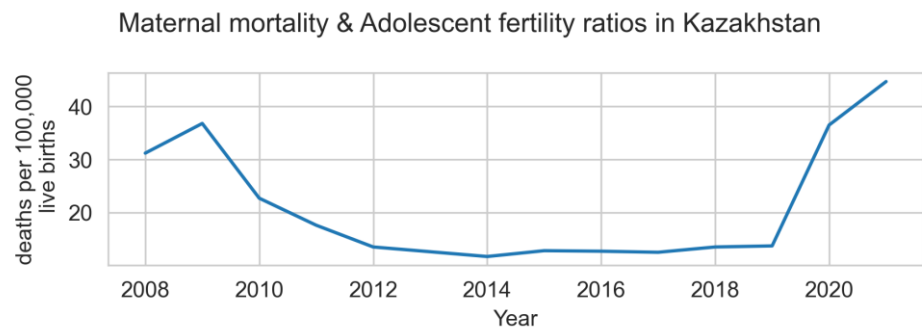

Global Gender Gap Index

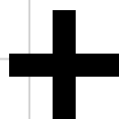

The Global Gender Gap Index in Iceland

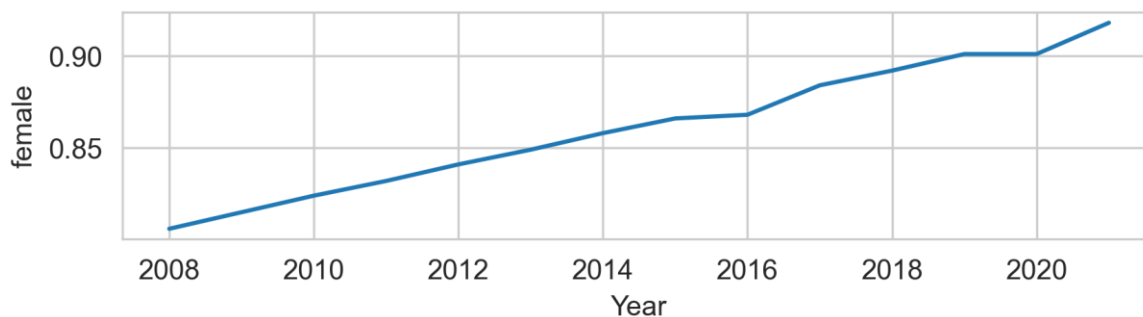

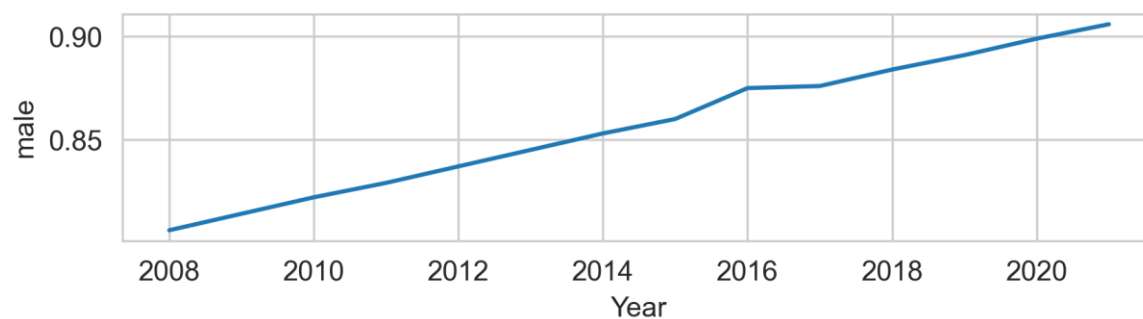

Human Development Index and Gender Equality

Percentage of population aged 15 years
and older having at least secondary education in Kazakhstan

Human Development Index and Gender Equality

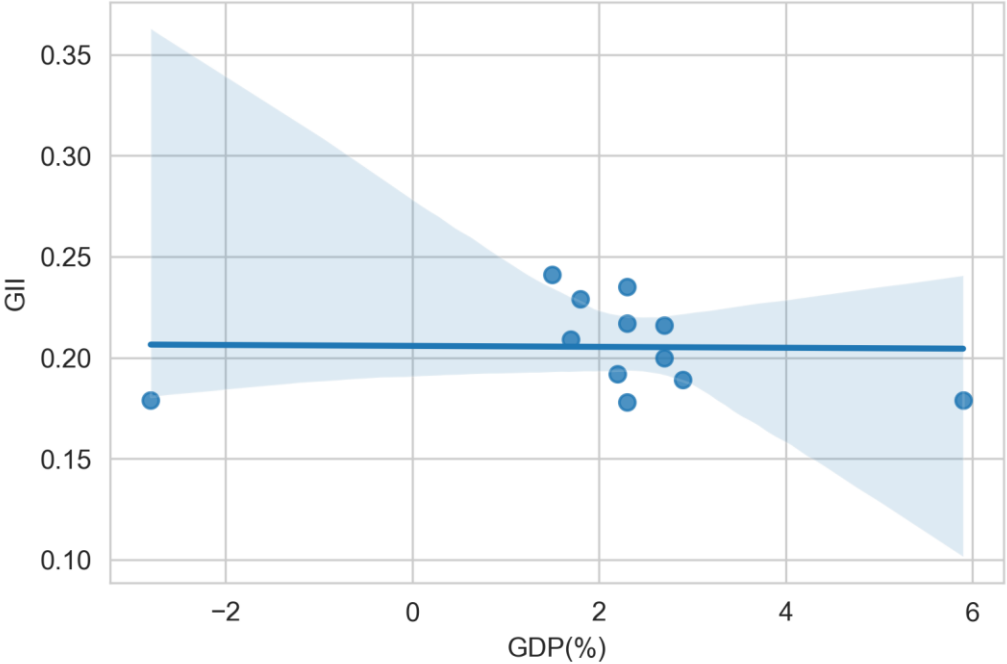

Range of scores, Global Gender Gap Index and subindexes, 2022

- Test the hypothesis that economic growth contributes to the reduction of gender inequality through good governance
- Work in process....

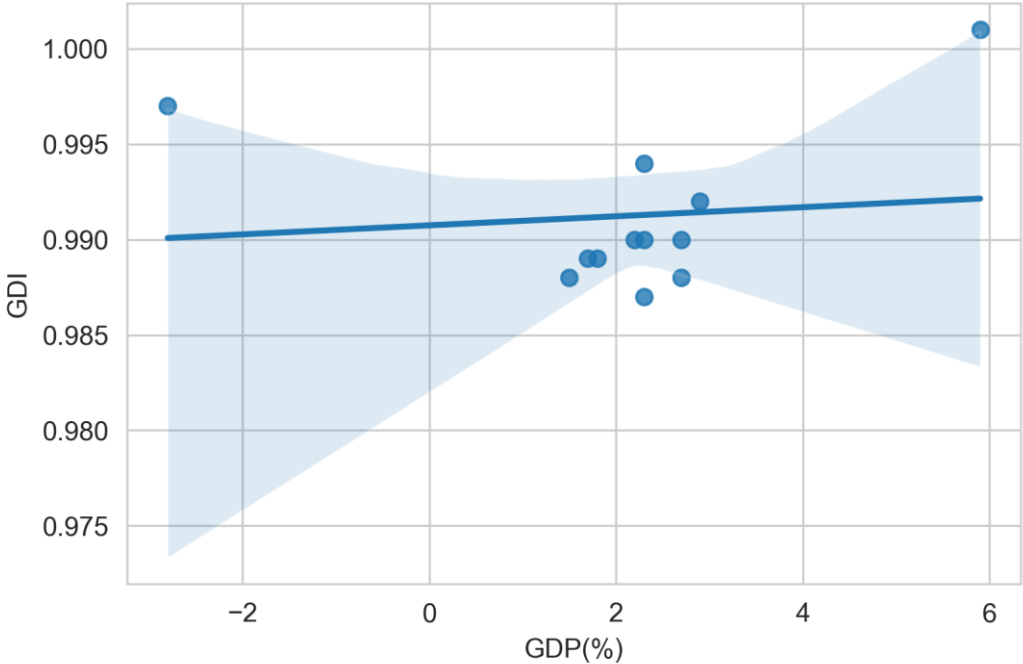

Scatter Plot of GDP growth and Gender Inequality

Scatter Plot of GDP growth and Gender Development

Reducing gender inequality largely depends on the answer to the following questions:

1. Why don't measures to ensure gender balance in politics and public administration work?
2. How can the situation be changed?
